The Isle of Wight

14-19 Post Area Inspection Action Plan

Following the area inspection of the Isle of Wight, which took place in October and November 2003, strategic partners and providers have continued their work together to strengthen and improve the provision of education and training for young people aged 14-19 on the Island. This post-inspection action plan has been drawn up in consultation with all key partners, and in the context of a major review of all education on the Isle of Wight.

The inspection team identified a set of significant strengths and weaknesses in education and training on the Isle of Wight. This action plan aims to address the key weaknesses. A further plan will be produced to take forward the consolidation of the strengths identified by inspectors.

The key features underpinning the action plan for 14-19 education and training on the Isle of Wight are:

- The establishment of a robust management structure across the area to take forward the actions in this action plan
- A vision that puts the learner at the centre of all developments
- Clear principles upon which to base the actions
- A strengthened commitment to raising learners' achievement levels and aspirations
- Increased collaboration and sharing of good practice to improve the standard of teaching and learning especially at KS4
- A commitment to establish a learner entitlement

This action plan has been produced over the period since the inspection by a range of contributors involved in education and training on the island. A small team has brought the contributions together, and has sought confirmation from partners of their commitment to taking the plan forward. The plan is focused on the needs of the learners on the island.

It is intended to foster increased positive collaboration to broaden the curriculum offer, raise standards, and encourage learners to reach their full potential.

DRAFT

INTRODUCTION

A The Context

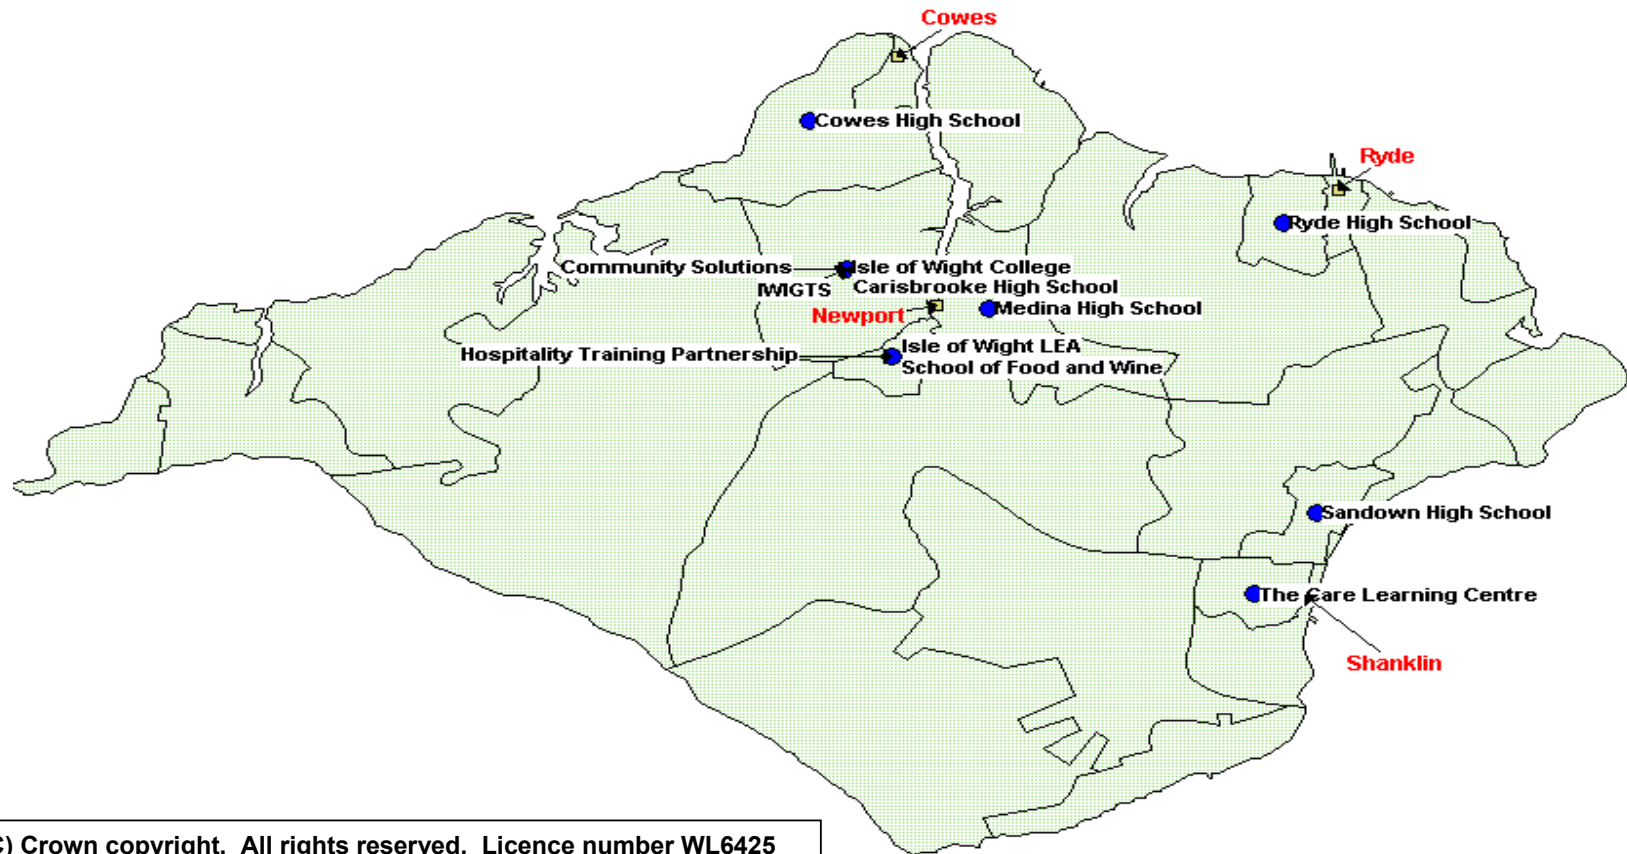

- (i) The Isle of Wight is a largely rural area, over 50% of which is classified as being of outstanding natural beauty. The majority of enterprise is in agriculture and horticulture.
- (ii) Almost 97% of the population of 133,000, are white British. Nearly 50% are aged over 45, and 25% of residents are over retirement age. Only 56.6% of residents aged 16 to 74 are employed compared with 60.6% nationally. (Census 2001) Crown copyright). There are currently 1577 sixteen year olds in education and training. (IoW School Org. Plan July 2003).
- (iii) The Island is economically more deprived overall than its mainland neighbours. Geographical isolation and lengthy commuting times have a continuing impact on socio-economic development and access to education and training on the Island.
- (iv) There are significant areas of multiple deprivation, mainly, though not exclusively, in Newport, Ryde and Ventnor. Fifteen of the 40 wards on the Island are in the most deprived 20% wards in England. More than 80% of school pupils reside in the most deprived wards. Over 17% receive free school meals compared with a national figure of under 16% (LEA data). More than 10% of the population are in receipt of benefits compared with 9% for England overall, and 6% for the South-East (ONS). The proportion of pupils with Statements of Special Educational Needs (SEN) is slightly higher than the national average at 3.1% (DfES data).
- (v) Unemployment on the Island is higher than regional levels at 2.3% ((July 2003 claimant count). Much employment in areas such as tourism, agriculture and construction is seasonal and low-paid. Nearly 50% of the working population earn less than £10,500 per annum. Over 40% of employment is part-time compared with 27.5% nationally, and a high proportion of workers are self-employed. Whilst the Isle of Wight has a range of employers of all sizes the proportion of micro employers (employing 10 or fewer employees) is higher than the average for Hampshire and Isle of Wight whilst the proportion of larger employers (employing more than 10 employees) is smaller than the average for Hampshire and Isle of Wight. Manufacturing has declined but it still represents a major source of employment of the Island. The main areas for employment are public administration and tourism together representing over 50% of employment opportunities. Seasonal employment in tourism causes many young people to leave education and training before completing their studies.
- (vi) The Island has been working to diversify the local economy and has attracted substantial investment in business in composites (the SEEDA Enterprise Hub based at 'The Innovation Centre'), and advanced materials. The expansion of aerospace, electronic engineering, wind

DRAFT

energy, IT & communications, and other low-impact technologies requires an input of qualified personnel, and is critical to the Island's overall regeneration (IoW Partnership Regeneration Strategy 2001-2005). Funding from the Single Regeneration Budget of over £11 million has helped to finance projects worth almost £44 million up to August 2002. Further funding of £10 million from SEEDA will contribute to the anticipated £50 million Cowes Waterfront Regeneration project.

- (vii) Participation rates in post-16 education and training on the Island are relatively high and have increased over the last 3 years. In total 88% of 16 year olds continue in education or training. However, achievement levels at 16 and 18 years are below national figures. Progression to higher education (HE) is slightly higher than the national average. Within this context, skills levels on the Island are generally low. Nearly a third of adults have no educational qualifications, and approximately 25% of the Island's residents have poor levels of numeracy and literacy (Basic Skills agency data). Many employers on the Island report difficulties in recruiting employees with professional, technical and managerial skills and qualifications.
- (viii) School organisation on the Island is currently under review. There are 46 primary schools, 16 middle schools, and five high schools. All of the high schools have a sixth form, two have specialist status, and one is a designated teacher-training school. There are two LEA-maintained special schools and two pupil referral units. There are three independent schools and one non-maintained special school on the Island. Overall the high school population is relatively stable, at between 1500 and 1580 per year group, with small fluctuations. Two-thirds of year 11 pupils continuing education progressed to school sixth forms, the remainder transferring to the further education college or training providers. Only 45.2% of year 11 school pupils gain five or more GCSE A* to C passes compared with over 50% nationally. Achievement is generally below national figures for academic qualifications at level 3. However, achievements at level 2 and 3 for vocational qualifications are over 10 percentage points above national figures at 83% and 91% respectively.
- (ix) The Isle of Wight College is a general further education college. It offers a broad-based curriculum including a wide range of HE provision to young people and adults. In 2002-3 the college provided education and training to over 900 full-time and 226 part-time students aged 16-18. Achievements are above national figures for vocational qualifications at all levels.
- (x) The LLSC has contracts on the Island with 5 work-based learning providers on the Island, who provided training for about 780 young people in 2003, and has links with 3 on the mainland who provide training for a further 106 Island trainees in the same year. The main qualifications offered are Foundation and Advanced Modern Apprenticeships, NVQs and Entry to Employment (Life skills) programmes. Numbers of participants in work-based learning on the Island are declining.

DRAFT

1B KEY PARTNERS

Planning and Funding partners

The statutory partners who plan and fund education and training on the Island are the Local Learning and Skills Council for Hampshire and the Isle of Wight (LLSC), the Isle of Wight Local Education Authority (LEA), and Connexions. The organisation of the schools is currently under review by the LEA with formal consultation by LEA and LSC planned for Autumn 2004. Funding for careers advice and guidance is provided by Connexions South Central.

Development Partners

Over the past two years, the LLSC has worked closely with the LEA, providers of education and training, and employers through the Tertiary Strategy Group (TSG) that was set up in 2002 to improve collaboration between Post-16 providers. Following the area inspection of the Isle of Wight the TSG will be wound up at a final meeting in June 2004, and a new strategic overview will be developed by the accountable bodies via the Isle of Wight 14–19 Executive Group comprising the Executive Director of the LLSC, the Director of Isle of Wight Children's Services and the Chief Executive of the local Connexions service, see Section 3. A 14-19 Operational Planning Group will be set up to co-ordinate and direct the work of 4 major working groups as described in Section 6 of this action plan. The role of 14-19 Co-ordinator has been introduced, jointly funded by the partners, will be key facilitating closer liaison and co-operation. The Local Strategic Partnership (LSP) has a clear view of the need to raise aspirations, improve achievement and widen participation in education and training. The overall community strategy for the Island is set out in the 'Island Futures Community Strategy' document. The Isle of Wight Learning Partnership is working with local employers to ensure that education and training provided on the Island is responsive to local needs. Island

Provider Partnerships

Closer partnerships between the high schools, the college of further education and work-based learning providers are contributing to a more consistent approach to data collection and analysis. This work is supported by the Data Sub-Group reporting to the Operational Planning Group. Additionally, there has been increased liaison between the high schools and the college to consider a common timetable enabling increased choice to all young people. Progression for young people with learning disabilities is enhanced by co-operative ventures between special schools, secondary schools and the college.

DRAFT

1C EXISTING STRENGTHS, WEAKNESSES AND GOOD PRACTICE

The area inspection of the Isle of Wight by OFSTED identified the following strengths in provision:

- a clear commitment on the part of the main stakeholders to increase levels of participation and achievement in education and training
- the successful introduction of a common timetable for some GCE AS subjects
- effective intervention strategies on the part of the local LSC resulting in improvements in the performance of some providers
- high levels of participation in post-16 learning
- successful strategies on the part of the Connexions service to reduce the number of unknown destinations and of young people not in education, employment or training
- significantly improved achievements at the FE college, now well above national benchmarks
- good and very good standards of teaching in school sixth forms and the college.

OFSTED identified the following significant weaknesses requiring urgent attention by the local LSC, LEA and partners:

- the absence of an explicit 14 to 19 strategy for education and training
- the lack of consideration about the appropriate balance of academic and vocational provision
- insufficient action by the LEA, school managers, elected members and governors to address unsatisfactory GCSE performance in schools
- some very small class sizes in school sixth forms
- insufficient co-ordination and promotion of work-related learning in schools
- the absence of sufficiently comprehensive information about the full range of post-16 learning opportunities
- too much teaching at Key Stage 4 which is only satisfactory.

DRAFT

Examples of good practice identified by partners in the Isle of Wight

- **Commitment to maintain and increase levels of participation and achievement 14 – 19:**

The **high schools** and the **college** are working together to raise participation and achievement levels by improving data to identify weak areas, and by sharing good practice in teaching and learning.

- **The development of innovative approaches to education and training:**

Increased learning pathways are being opened up to young people through the work of **The Increased Flexibility Partnership** (including all schools and the college). **The family learning service** is working to increase links between primary and 14 – 19 work to increase achievement levels. **The Connexions service** has introduced successful strategies to reduce numbers of unknown destinations for learners, numbers of young people not in education or training, and unemployment amongst young people.

- **A wide range of enrichment activities in the high schools:**

Activities such as:

Model United Nations General Assembly (MUNGA) – giving learners the opportunity to consider world problems through simulation

Young Chamber of Commerce – shadows the IoW Chamber of Commerce and provides excellent links with business and work-based learning

Wight 2B Heard – providing a forum for discussion about island concerns for young people

There are many more examples.

- **The establishment of two Centres of Vocational Excellence (CoVEs) on the Island:**

The island now has **two CoVEs**, in catering and in residential and domiciliary care. The catering CoVE is a collaborative involving the Isle of Wight College, and led by the Hospitality and Training Partnership (HTP); the care CoVE is a partnership between the college and The Care Learning Centre.

- **The Isle of Wight Employer Learning Hub:**

The Employer Learning Hub has concentrated its development initiatives on two major areas of learning; composites and health and social care. It works closely with the Isle of Wight Learning Partnership. The two chosen areas are essential to the island as they offer employment in non-seasonal employment, and are growing sectors of employment.

DRAFT

- **Work with pregnant teenage mothers:**

The partnership working between the Learning and Skills Council, HTP and Connexions continues to support young parents on the Isle of Wight. HTP deliver a Young Mums to Be programme using Work Based Learning funding. This programme is currently under development and will include changes that support the engagement of Young Fathers. **Care to Learn** provides financial assistance for childcare. Since August 2003 the programme has helped 37 young women and supported 6 returners with their babies.

DRAFT

1D PROGRESS SINCE THE INSPECTION

Use of intensive research to determine the reasons poor retention of 16-19 learners at level 3

This research has been used to identify strategies to tackle poor retention through improved monitoring of learners' progress and strengthened tutorial provision in the college.

Sharing of good practice

Following the successful OFSTED inspection, the college is involved in sharing of good practice in teaching and learning, management and guidance with providers on the island, and colleges further afield. This work is supported by the LSC.

Curriculum Mapping

A comprehensive curriculum mapping exercise has clarified progression routes for young people from year 10 to year 13. It identifies opportunities in the high schools, the college, and with work-based learning providers. The curriculum map is currently being updated.

Improved transport facilities to enable learners to access provision

Support from the LSC has provided additional transport to enable learners to access a wider range of venues.

Some improved specialist facilities available to learners

The college is undertaking a substantial development programme to provide new facilities for art and design, media and flexible learning. Increased use of specialist facilities on the island, such as Quay Arts has widened the range of specialist skills that can be taught.

Increased collaboration between providers

An increased range of options now available to all 14-19 learners on the island, covering over 20 GCE A2/AS subjects and 10 vocational courses, being offered through common timetable slots in the high schools and the college.

Improved quality assurance

The high schools now have a more consistent approach to quality assurance, which encompasses many of the features of the college system, such as learner satisfaction surveys and observation of teaching and learning. The high schools are piloting on-line satisfaction surveys for more immediate feedback.

DRAFT

2. VISION STATEMENT AND STRATEGIC OBJECTIVES

THE VISION

Our vision is to raise the aspirations, achievements and progression of 14-19 year olds on the Isle of Wight to further learning and/or work.

By 2010 we will have maintained or increased levels of participation, retention and attainment across the 14-19 phase to above, or equivalent to, national averages, meeting the diverse needs of all learners through the delivery of a high quality and coherent education and training system.

The proposed learner entitlement will guarantee that learning is:

- **Responsive and flexible;**
- **Inclusive and provides equal opportunities for all learners;**
- **Matched to individual need;**
- **Supported by excellent teaching, learning environments and guidance;**
and
- **Effectively monitored and evaluated.**

The three compelling imperatives arising from the area inspection are:

- **To raise standards and improve the quality of teaching and learning at Key Stage 4**
- **To safeguard the long term-viability of the full range of post-16 options by reducing current over-capacity during the review of school organisation**
- **To develop and implement for all 14 – 19 year-olds an entitlement to an appropriate choice of curriculum options, information, advice and guidance**

In presenting options for change and judging the most suitable one, the outcome of restructuring should meet the following key criteria:

Overall

- **Achieves community support for the changes and falls within affordability criteria.**

Pre-16

- **Improves Level 2 equivalent and GCSE results**
- **Provides impartial and comprehensive information, advice and guidance,**
and

DRAFT

- Improved progression rates to post-16 education and training.

Post-16

- Delivers minimum class sizes that can deliver high quality learning
- Provides cost effective provision through efficient use of schools, college and WBL resources
- Ensures financial stability achieved through a good balance of supply and demand
- Implements a restructuring programme that is achievable within 5 years of the decision date given capital constraints
- Delivers a range of vocational provision that is suited to learner wishes and employer needs and reasonable travel distances for learners.

DRAFT

Key Themes & Strategic objectives

Theme 1: Strategy & Leadership

- S1 To ensure effective strategic collaboration that improves the range, choice and quality of learning.
- S2 To strengthen the strategic leadership of 14-19 education and training to raise standards and ensure cost-effective and sustainable provision across the Island.

Theme 2: Curriculum provision, access and guidance

- S3 To provide a comprehensive and challenging curriculum that delivers education and training for all learners tailored to their individual needs and talents
- S4 To provide high quality, comprehensive information, advice and guidance that encourages participation and progression for all learners.

Theme 3: Quality, Standards and Support

- S5 To create a culture of continuous quality improvement across all providers that builds upon current good practice.
- S6 To improve the monitoring of individual learners' progress, in order to ensure good retention, achievement and successful transition, particularly for vulnerable groups.

Proposed schedule of costs

Theme 1: £275,000 to include using professional advisers (such as property and financial expertise) to facilitate a review and formal consultation on configurations to rationalise capacity and establish cost effective and sustainable provision

Theme 2: £325,000 to include developing greater coherence in curriculum offer, and producing a more comprehensive directory of learning

Theme 3: £100,000 to include measures to improve retention and achievement and to provide effective support for learners

Detailed schedule of costings to be discussed by the Executive Group at their June 2004 meeting.

DRAFT

3. LEADERSHIP AND MANAGEMENT

Structure

The management structure depicted in the structure diagram will provide the mechanism to address weaknesses identified in the area inspection report, particularly in relation to the need for an overall, transparent, focussed strategy for development and progression. A key focus will be the improvement of achievement levels at key stage 4 in the high schools. Care has been taken to involve partners and providers in decision-making and in the implementation of the PIAP.

The Executive group is a small group representing the most senior executive officers of each of the three statutory bodies accountable for the education and training provision, advice and guidance on the Isle of Wight. The Executive Group aims to facilitate the shared responsibilities while acknowledging the separate accountabilities of the principal planning and funding organisations. It will have strategic responsibility for planning, funding and investment, and will lead the development of further collaboration between partners and providers to secure adequate and sufficient provision and improved performance across the area. The Executive Group will take forward the vision as set out in Section 2 of this action plan. This group will oversee and direct the work of the Operational Planning Group. It will take advice from the Provider Implementation Group and the Local Learning Partnership. Through the Operational Planning Group, it will monitor the implementation of changes, and the progress of collaboration instigated by the Provider Implementation Group. Each member will be responsible to their own Council for the implementation of the actions described in this action plan, and for monitoring the effectiveness of the actions. The group will approve regular reports to the DfES on the progress of the action plan throughout the four years of its operation.

The Operational Planning Group will be responsible for planning and securing agreement for changes in the 14-19 infrastructure, and relevant resource issues. It will oversee actions relating to curriculum, quality & standards, and support & guidance. It will set up specialist task groups to tackle specific issues in the PIAP, and will monitor the progress of the actions taken. The operational management group will meet monthly, and will liaise closely with partners and other interested parties to ensure that the implementation of the action plan is responding successfully to local needs. A key task for this group will be to prepare and deliver half-termly briefings on progress for all partners and providers. The briefing events will provide a forum for discussion and the opportunity to modify or change actions if there is a perceived need.

The Provider Implementation Group consists of providers and partners in education and training across the Isle of Wight. It will report to the Operational Planning Group, and will be responsible for discussing, planning and implementing changes in response to the PIAP.

DRAFT

The Local Learning Partnership, which will include representatives from the local community as well as providers, will provide advice to the Executive Group, the Operational Planning Group and the Provider Implementation Group to ensure that actions and progress respond to local needs.

How will the PIAP be reviewed and monitored?

In addition to the ongoing strategic planning remit of the Executive Group and related groups, the above structure will be used to review and monitor progress of implementation of the PIAP.

The specialist task groups and the Provider Implementation Group will report regularly, at least bi-monthly to the Operational Planning Group on progress against planned actions for the four years of the PIAP. The Operational Planning Group will prepare reports for the Executive Group half-termly, and will facilitate half-termly briefing meetings for partners and providers on the Island.

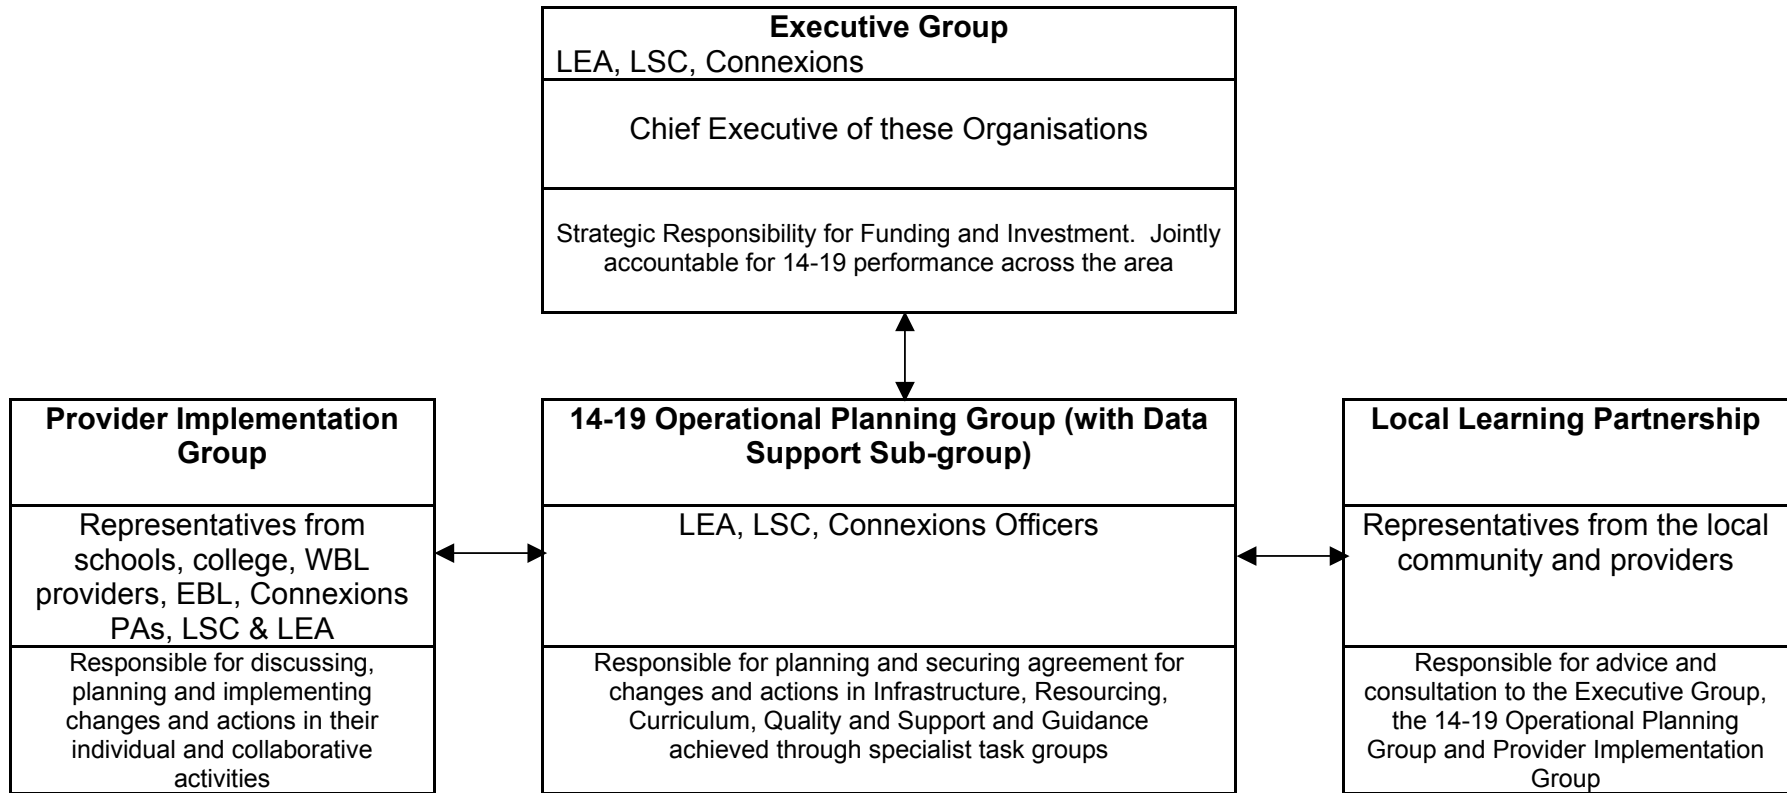

Comments and suggestions from providers and partners will be incorporated in modifications to the plan and will be shared with the Executive Group and the DfES as appropriate.

The Executive group will prepare and approve termly reports for the LSC Council, the LEA and the Connexions Council. It will also provide detailed reports to the DfES formally each term, and more frequently if progress is faster or slower than anticipated.

It is expected that the plan will run for four years initially. The Executive Group will consider the length of the plan in response to progress against planned actions. The targets set in section 6 will be monitored termly by the Executive Group

Draft terms of reference for each group are in Section 10.

DRAFT

The Executive group should meet on 24 June 2004 to finally agree the roles and membership of the working groups and set appropriate terms of reference for all groups.

A meetings' schedule for the working groups will be drawn up by the area manager LLSC in order to avoid overlap and to ensure timely reporting.

DRAFT

4. PRINCIPLES

The following principles will underpin the 14-19 education and training strategy:

- I. The needs of all learners will drive the planning and delivery of provision and will be at the centre of what we do.
- II. The widest possible choice of learning pathways should be available.
- III. There should be clear progression routes 14-19 and beyond to encourage lifelong learning.
- IV. Learning environments should be accessible and inclusive and should offer appropriate support to learners to help them succeed.
- V. High quality teaching and learning is critical to raising aspirations and challenging individuals to reach their full potential.
- VI. Key funding and planning agencies, schools, the college and work-based learning providers need to be supported by effective collaboration led by the Executive Group.
- VII. Parity of esteem between general and vocational courses should be encouraged.
- VIII. A commitment to providing impartial information, advice and guidance, which is tailored to meet the needs of individual learners.
- IX. Partners will be committed to promoting equality of opportunity, listening to the views of learners, and eliminating barriers to learning.

These principles will be delivered through the Proposed Learner Entitlement

DRAFT

5. PROPOSED LEARNER ENTITLEMENT 2004 - 2010

The Learner Entitlement for the Isle of Wight will reflect closely the key messages of **14-19 Opportunities and Excellence**. **The Isle of Wight welcomes the Tomlinson review and its core principles of parity of esteem between vocational and occupational as well as academic pathways and enhanced flexibility for learners.**

In developing a learning entitlement our aim is to improve the quality of provision to give all young people an equal chance of success. We want each learner to have an experience of education or training that fosters their commitment to lifelong learning, raises aspirations, widens horizons, and enables them to fulfil their potential.

Effective implementation of the learner entitlement will support our vision through providing:

a. **Access to flexible and responsive curriculum pathways**

All young people will have access to a responsive curriculum that meets their needs by providing clear pathways and progression routes to further & higher education, training, and employment. The location, delivery mode and breadth of the provision will encourage participation by young people from all backgrounds, whatever their previous prior achievement.

b. **Access to a high quality and inspiring learning environment that is fit for purpose**

The responsive curriculum will enable young people to experience learning at all stages that raises their aspirations. Learners have a right to motivational teaching and well-structured learning in a state of the art environment where teachers and learners use technology and other resources effectively to promote learning. All providers will systematically gather and analyse information on learners' views of the quality and suitability of provision. Learners will be given feedback on the actions taken to respond to the issues raised.

c. **Access to excellent information, advice, guidance and learning support**

Learners and their families will receive comprehensive, good quality information that encourages progression. Learners are entitled to impartial advice and guidance including financial information, and constructive support and mentoring. All stakeholders will have a consistent approach to application and enrolment, offering the learner the widest possible choice of provision.

DRAFT

d. Effective monitoring and evaluation of learning and progress

Learners' progress will be carefully monitored through application, enrolment and induction, and throughout their studies. Learners will receive constructive feedback and ongoing support and guidance to help them to achieve and progress. Information will be shared with learners, their families and stakeholders as appropriate to encourage ambition, imagination, achievement and progression.

The learner entitlement will make sure that young people understand:

- **What they are entitled to**
- **What it means for them**
- **What they need to do as learners to make it work and**
- **What providers will do to help them**

DRAFT

6. TARGETS

6.1 To meet the objectives in this Action Plan the 14-19 Action Plan Implementation Group have agreed the following sets of targets for all stages of the 14-19 Strategy. The key targets are summarised in the table below. Target setting related to national performance tables has been kept at institutional and LEA level.

Target Setting Principles

6.2 The following principles were agreed to underpin all the target setting processes required by this plan. All learner individual development plans will have appropriate targets based on their individual needs.

- All targets to be confirmed as based on institutional targets as part of institutional self assessment and continuous improvement
- All targets are benchmarked at institutional and LEA/LSC level as appropriate
- All targets are subject to a review process in relation to value-added as appropriate data is available nationally or through the Strategic Area Review process.

Monitoring Strategy

6.3 When the 14-19 Action Plan is approved by the Minister the **Operational Planning Group** will work on behalf of the LLSC and the LEAs to:

- monitor progress in implementing the Action Plan and targets set
- oversee the compilation of termly reports to the national LSC and the DfES
- continuously evaluate the 14 –19 Strategy and link into the Strategic Area Review process on the Island
- advise the LSC and the LEA on further actions for 14 –19 development in the light of new legislation and other national opportunities and developments.

6.4 The Operational Planning Group will also establish/confirm a Data working group to:

- oversee the development of curriculum mapping leading to a draft curriculum entitlement
- review Management Information and value added data collection strategy
- produce value for money indicators.

7. ACTION TABLES

STRATEGIC THEME: 1 - STRATEGY AND LEADERSHIP

Strategic objectives:

- S1:** To ensure effective strategic collaboration that improves the range, choice and quality of learning.
S2: To strengthen the strategic leadership of 14 – 19 education and training, to raise standards and to ensure cost-effective and sustainable provision across the Island.

SUCCESS CRITERIA:

- An explicit strategy for 14-19 education and training which is being implemented effectively (S1)
- Clear terms of reference for key groups (S1)
- Effective collaborative working between providers and partners (S1)
- Clearly agreed structure for school organisation on the Island (S1)
- Rationalisation of over-capacity at post-16 (S1)
- Raised learner awareness of their entitlement (S2)
- Improved teaching and learning (S2)
- Improved achievement levels at 14, 16 and 19 (S2)
- Provision which is responsive to learner needs (S1 & S2)
- Cost-effective provision (S2)

MONITORING REVIEW AND EVALUATION:

Operational Planning Group and Executive Group

STRATEGIC THEME: 2 – CURRICULUM PROVISION, ACCESS AND GUIDANCE

Strategic objectives:

- S3:** To provide a coherent and challenging curriculum that delivers education and training for all learners tailored to their individual needs and talents.
- S4:** To provide high quality, comprehensive information, advice and guidance that encourage participation and progression for all learners To develop high quality information that encourages access, participation and progression for all learners.

SUCCESS CRITERIA:

- Comprehensive analysis of provision on the Island (S3)
- Improved range of provision available flexibly across the area (S3)
- Increased collaboration between providers to widen choice (S3)
- Increased participation, attendance, retention and success rates (S4)
- Improved progression to higher education (S4)
- Common recruitment, advice and guidance systems (S4)
- Regular programme of recruitment/guidance/progression events (S4)

DRAFT

STRATEGIC THEME: 3 - QUALITY, STANDARDS AND SUPPORT

Strategic objectives:

- S5:** To bring about a culture of continuous quality improvement across all providers that builds upon current good practice.
- S6:** To improve the monitoring of individual learners' progress, ensuring good retention, achievement and successful transition, particularly for vulnerable groups.

SUCCESS CRITERIA:

- Effective quality assurance systems for all providers (S5)
- Rigorous self-assessment undertaken by all providers (S5)
- Strong leadership and management demonstrating effective collaboration (S5)
- Consistent, timely and accurate data to support planning (S5)
- Involvement of learners in quality assurance procedures (S6)
- Improved tracking and monitoring of learners' progress (S6)
- Increased learner satisfaction levels with the provision (S6)
- Improved quality of teaching and learning (S6)
- Responsive tutorial support in place for all learners (S6)

9. OTHER

The table below provides the cross-reference between the recommendations in the inspection report and the number of the action tables in Section 7.

INSPECTION REPORT RECOMMENDATIONS				
			PIAP Strategic Theme	PIAP Action Number
1	The Strategy for 14-19 Education and Training			
	a	The key partners should progress the development of an explicit 14 to 19 education and training strategy linked to an area curriculum plan and measurable success criteria.	S1 S2	1.1 1.2 1.3
	b	Key stakeholders should consider alternative configuration models in the event that collaboration does not succeed in rationalising overcapacity on the part of providers.	S1 S2	1.3
	c	The balance between academic and vocational provision should be more comprehensively analysed to meet both the needs of employers and the interests of learners	S3	2.2
2	Leadership and Management			
	d	The LEA should identify and disseminate best practice at Key Stage 4 and ensure that teaching methods and the curriculum appropriately meet the needs of all learners, in order to secure higher standards.	S2 S5	1.4 3.1
	e	Elected members and governors should challenge the performance of schools more closely in order to bring about improvement, particularly at Key Stage 4.	S2	1.5
	f	Value for money indicators should be developed to enable judgements to be made about the cost-effectiveness of provision within and between the different providers.	S2	1.8
3	The curriculum and access to, and participation in, education and training			
	g	The LEA and local LSC should continue to develop greater coherence in post-16 curriculum planning in order to minimise the incidence of small class sizes, widen choice and secure relevant progression opportunities.	S3	1.3b
	h	The college and the schools should continue to work together with a view to expanding opportunities to combine academic and vocational study.	S3	2.2
	i	Activities to support work-related learning at Key Stage 4 should be further developed, including better use of employers and other training providers to give information to students on different progression routes.	S3	2.3
4	Guidance and support			
	j	The key stakeholders should work together to develop a more comprehensive directory of learning opportunities for young people at 16 and beyond.	S4	2.1
	k	Providers of education and training should work together to ensure better sharing of information about individual learners both within and between different institutions.	S6	3.6
	l	Schools should ensure that, where applicable, the PRU is provided with relevant schemes of work for pupils in core subjects in order to inform its teaching and support programme.	S6	3.5c

DRAFT

			PIAP Strategic Theme	PIAP Action Number
5		The quality of 14 to 19 education and training		
	m	Schools should ensure that GCSE achievements improve to match at least the standards of the LEA's statistical neighbours.	S5	3.1 3.2 3.3
	n	The LEA should ensure that the achievements of vulnerable groups improve significantly from their current level.	S6	1.4 3.3 3.5
	o	Measures of GCE AS and A-level achievement, which compare students' grades with previous GCSE results, should be used more systematically with action taken to address under-performance.	S5	1.6 1.4 1.8

DRAFT

10. DRAFT TERMS OF REFERENCE

Terms of Reference - LEA, LSC, Connexions Executive Group

Overall Responsibility

As the three key funding partners, to be jointly responsible for the development and implementation of the 14-19 strategy which will deliver the vision and objectives in the PIAP.

Main Accountabilities

- To ensure the PIAP is implemented
- To report progress to relevant Councils and DfES
- To ensure the Operational Planning Group has sufficient resources, clear terms of reference and works efficiently in implementing the PIAP
- To ensure the structure which underpins the implementation of the PIAP continues to be appropriate and effective

Ways of Working

These will be formalised in a MOU between partners (to be agreed at the first formal meeting in June 2004). The MOU will include:

- Membership – as defined in the PIAP plus supporting staff representatives as necessary
- Decision-making – unanimous between the three chief executives
- Co-opted members – as agreed between members (on temporary or permanent basis) but without decision-making powers
- Chair – to rotate
- Frequency of meeting – quarterly
- Location – by agreement but at least two in three on the Island
- Quorum – all three chief executives (or their agreed alternates) only

Standing Agenda Items

- Report from Operational Planning Group on progress against plan (infrastructure re-organisation and operational performance)
- Judgement on progress and consequences
- Review of targets and objectives in plan
- Resources and budgets
- Communications with providers, Learning Partnership and other stakeholders
- Approval of reports to Councils and DfES
- Review of risks to successful implementation of PIAP

DRAFT

Standing Meeting Dates (date to be agreed in the following months)

24 June 2004, September 2004, December 2004, March 2005, June 2005, September 2005, December 2005.

DRAFT

Terms of Reference – 14-19 Operational Planning Group

Overall Responsibility

To be responsible to the LEA, LSC, Connexions Executive Group for the detailed planning and implementation of the PIAP, including infrastructure changes and operational improvements.

Main Accountabilities

- To implement the PIAP
- To report progress to the Executive Group
- To ensure the Provider Implementation Group operates effectively in implementing changes necessary to deliver the PIAP
- To ensure the advice and opinion of the Provider Implementation Group and the Local learning Partnership are taken into account where appropriate.

Ways of Working

These will be formalised in a MOU between partners (to be agreed at the first formal meeting in July 2004). The MOU will include:

- Membership – as defined in the PIAP (plus supporting staff representatives as necessary)
- Decision-making – unanimous between the three organisations. Hung decisions to be referred to the Executive Group.
- Co-opted members and specialist task group members – as agreed between permanent members but without decision-making powers
- Chair – LSC member
- Frequency of meeting – monthly
- Location – by agreement but all on the Island (unless force majeure)
- Quorum – all three organisations represented

Standing Agenda Items

- Review of progress against plan of implementation of PIAP
- Report to Executive Group
- Guidance from Executive Group
- Review of targets and objectives in plan
- Resources and budgets
- Communications with Provider Implementation Group and Local Learning Partnership
- Review of risks to successful implementation of PIAP
- Reports from specialist task groups, including Data Support Sub-group

Standing Meeting Dates - monthly

DRAFT
Terms of Reference – Isle of Wight Learning Partnership

Overall Responsibility

The Isle of Wight Learning Partnership needs to consolidate their unique position as an independent representative of the local community and to gain community awareness and ownership of the key issues and causes of underachievement in learning and skills.

Main Accountabilities

- To act as the 'learning arm' of the Local Strategic Partnership (LSP) and advise and co-ordinate the delivery of Theme 5 of the LSP
- To promote collaboration between providers, including promoting, facilitating and actively co-ordinating collaborative applications for funding
- To consult with, and respond on behalf of the community, on proposals made by the key planning and funding agencies involved in learning and skills
- To advise the key planning and funding agencies on what research and analytical work may need to be commissioned to understand the issues in the local area
- To engage the community through neighbourhood renewal and other regeneration partnership programmes, in working more effectively to overcome key issues and problems in learning and skills
- To identify learning and skills issues with proposals on how they could be overcome.

Ways of Working

This will be formalised in July 2004 when a new contract is agreed with the LLSC. This will need to include a statement of how the Learning Partnerships' existing sub-groups, partner and stakeholder groupings can continue to integrate with, and support the work of the Executive Group. The 'ways of working' is likely to include:

- Membership and supporting staff
- Chair and Vice Chair selection and nomination
- Co-opted members – as agreed between members (on temporary or permanent basis) but without decision-making powers
- Frequency of meetings.

Standing Agenda Items

Again, this will be influenced by the new contract with the LLSC in July 2004. Standing agenda items are likely to include:

- Report from the Chair
- Reports from relevant management and sub groups
- Review of objectives, milestones and targets
- Review of resources and budgets
- Approval of collaborative funding bids
- Consultation on emerging issues and proposals for action.

Standing Meeting Dates (to be agreed)

DRAFT

Terms of Reference – Provider Implementation Group

Overall Responsibility

To be responsible for planning and implementing the supply-side changes necessary to achieve the objectives in the PIAP. These may be individual provider changes, collective changes or collaborative ways of working together.

Main Accountabilities

- To plan the implementation of the PIAP across the network
- To report progress to the 14-19 Operational Planning Group
- To provide advice to the Executive Group and the 14-19 Operational Planning Group on detailed implementation
- To promote collaboration between providers across 14-19 phase

Ways of Working

The group comprises providers, led by the LEA and LSC, for the purpose of ensuring the objectives and targets within the PIAP are achieved. They meet to agree common cause and collaborative solutions.

- Membership – as defined in the PIAP
- Decision-making – through consensus, with disagreements referred to the 14-19 Operational Planning Group
- Co-opted members – as agreed between permanent members but without decision-making powers
- Chair – LSC and LEA members, rotating
- Frequency of meeting – every half term
- Location – by agreement but all on the Island (unless force majeure)
- Quorum – all organisations represented

Standing Agenda Items

- Review of progress against plan of implementation of PIAP
- Guidance and requirements from 14-19 Operational Planning Group
- Report to 14-19 Operational Planning Group
- Review of targets and objectives in plan
- Review of risks to successful implementation of PIAP

Standing Meeting Dates – half termly, to be agreed

ANNEX – List of those involved in producing the plan
