Looking for a new boiler?

Replacing your boiler will save you money on your heating bills. A new conventional boiler could save you £140 per year and can cost as little as £450 (excluding installation).

Replacing your old boiler with a condensing boiler could save you £200 per year on your heating bills and with the discounts available you can now buy a condensing boiler for a similar price to a conventional boiler.

Call the Energy Efficiency Advice Centre for further details:

COST-FREE ENERGY SAVING MEASURES

- Turn the thermostat down by 1°C. It could cut your heating bills by up to 10 per cent or around £30 per year
- Set the hot water thermostat at 60°C/140°F for a saving of up to £10 per year
- Close your curtains at dusk to stop heat escaping through the windows
- Always turn off the lights when you leave a room - and adjust your curtains or blinds to let in as much light as possible during the day
- To cut down on wasted energy, avoid leaving appliances on standby and remember not to leave appliances on charge unnecessarily
- When purchasing new products look for the Energy Efficiency Recommended logo

Energy Efficiency Recommended is an Energy Saving Trust initiative backed by the Government. The logo is only found on products that have been carefully selected for the energy efficiency. Buy where you see the sign and help save energy, money and the environment. This is a certification mark.

Save money, stay warm and help the environment!

Receive up to a **£400** discount on home insulation measures and cut your fuel bills by around **£200** a year!

Discounts on home insulation measures!

Are your loft and walls adequately insulated? If not, you could be wasting up to £200 a year by losing over half the heat from your home.

All homeowners and those renting privately are entitled to discounts on cavity wall insulation, loft insulation and hot water tank insulation.

These discounts for home insulation are provided by fuel companies who are helping the Government and your Local Authority to reduce carbon dioxide emissions.

Typical discounts are as follows:

	Typical price without discount	Prices with discount	You save up to	Annual Savings on heating bills
Cavity Wall Insulation	£385	from £150	£235	£70-£100
Loft Insulation	£250	from £100	£150	£90
Fitting a jacket to your hot water tank	£20	from £5	£15	£15
Energy Efficiency is an Energy Saving Trust initiative backed by the Government			Total savings on insulation – up to £400!	Total savings on fuel bills – up to £200!

The costs above are based on insulating a typical 3 bedroom semi-detached house.
