0-4	764	663	1427
All Ages	13,181	12,437	25,618

This cluster contains above Island profile numbers of young families with school aged children.

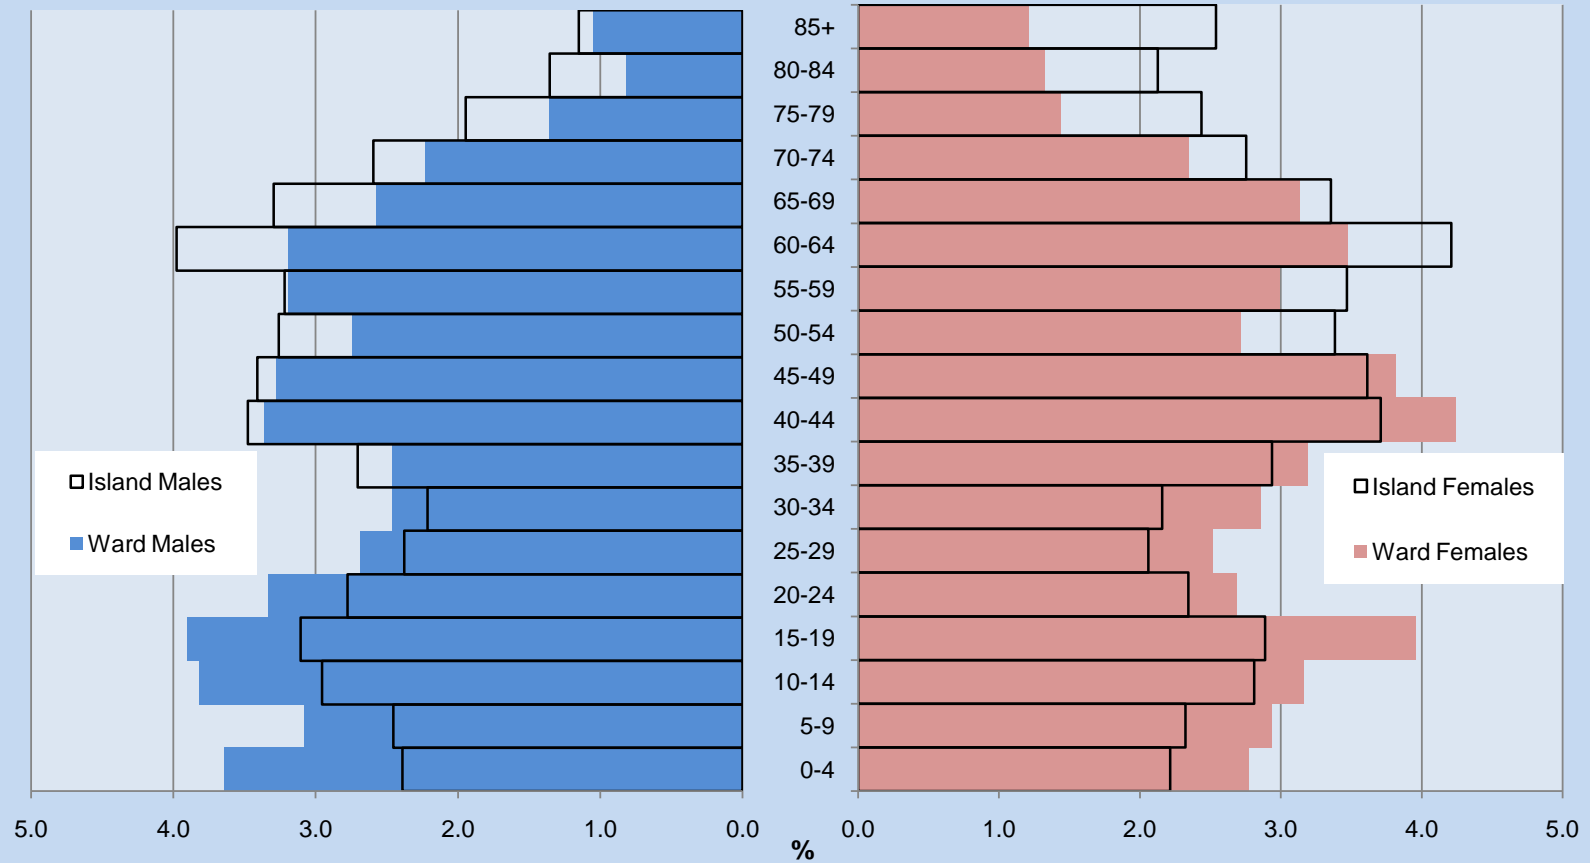

Significant numbers of young single people migrate into the cluster area for education, and the facilities of the town, largely compensating for the post 19 year olds whom take University places on the mainland.

The post-50 age group are out migrating away from the cluster area to some extent for retirement in more desirable locations within the Island.

Some distortion to the male age population occurs as the result of some 485 prisoners at HMP Isle of Wight.

This ward has significant levels of young families with school aged children, with some out migration occurring at age 19, with these young adults likely to be leaving this area to pursue further education or employment opportunities.

Net Inward migration occurs from age 25 onwards probably comprised of both young and older families.

There is evidence that people are leaving this ward from age 50 onwards with the result that there are fewer people of retirement age in proportion to the rest of the Island.

Newport Central Ward; Age and Gender as % of population (3777), Compared to the Isle of Wight: ONS Mid Year Estimates 2009

All Ages	1,823	1,954	3,777

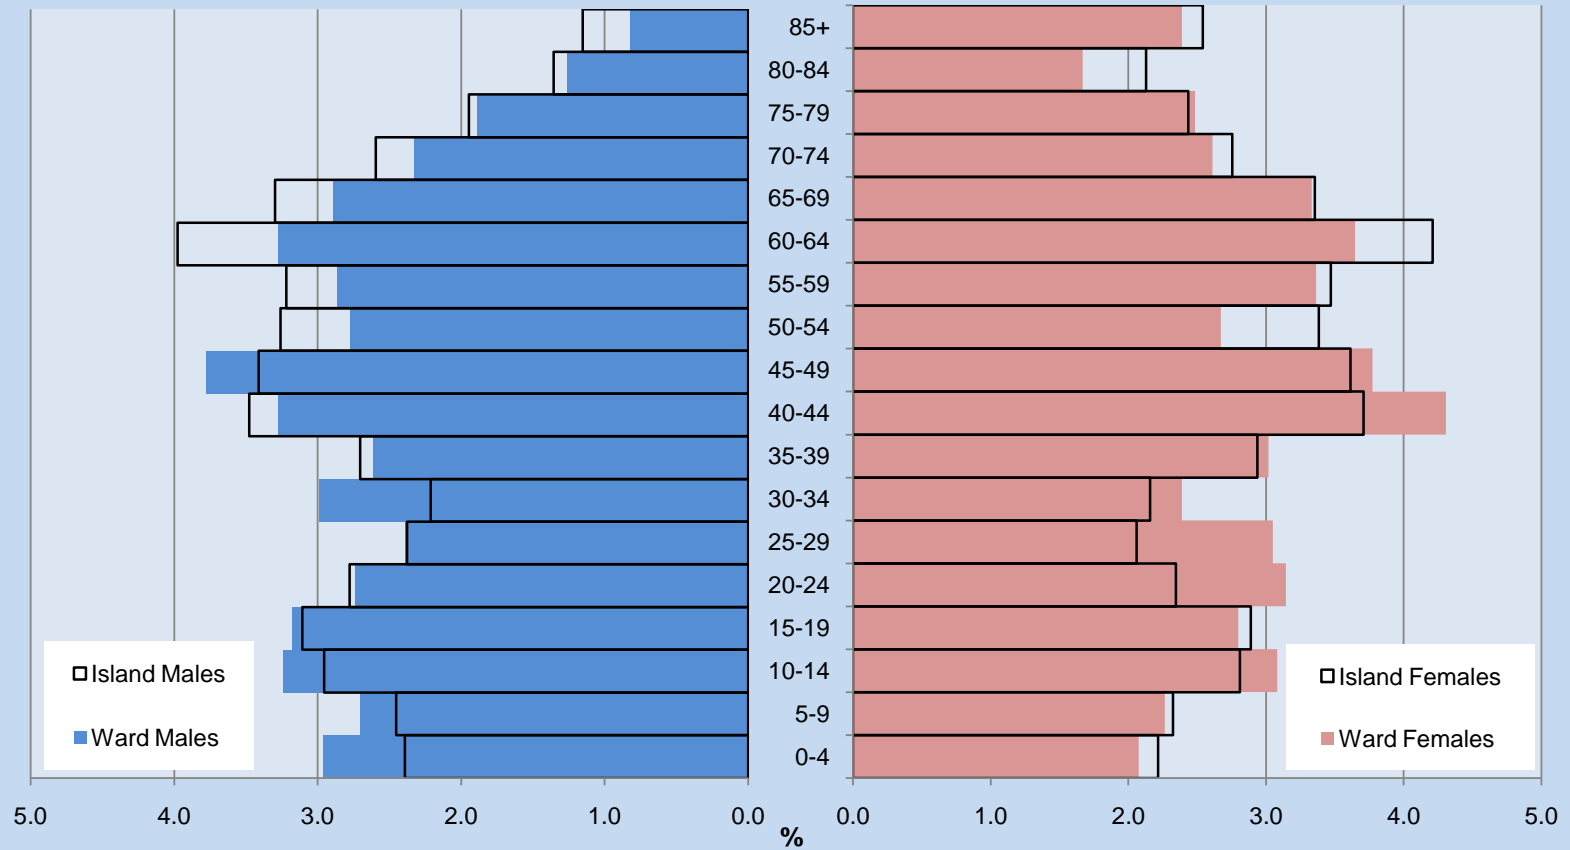

Significant numbers of young singles move into this ward from age 20 onwards to gain access to accommodation, education, employment and the towns facilities. This is augmented by some young families - with high numbers (well above the Island profile) of children under the age of 10, and adults of both genders between the ages of 20 and 30.

Significant numbers of the post 50's population leave, possibly looking for more desirable locations to retire to.

Females from age 75 onwards are present in numbers close to the Island profile, perhaps moving to be closer to urban facilities.

Newport East Ward; Age and Gender as % of population (3180), Compared to the Isle of Wight: ONS Mid Year Estimates 2009

	Male	Female	Total

5-9	86	72	158
0-4	94	66	160
All Ages	1,524	1,656	3,180

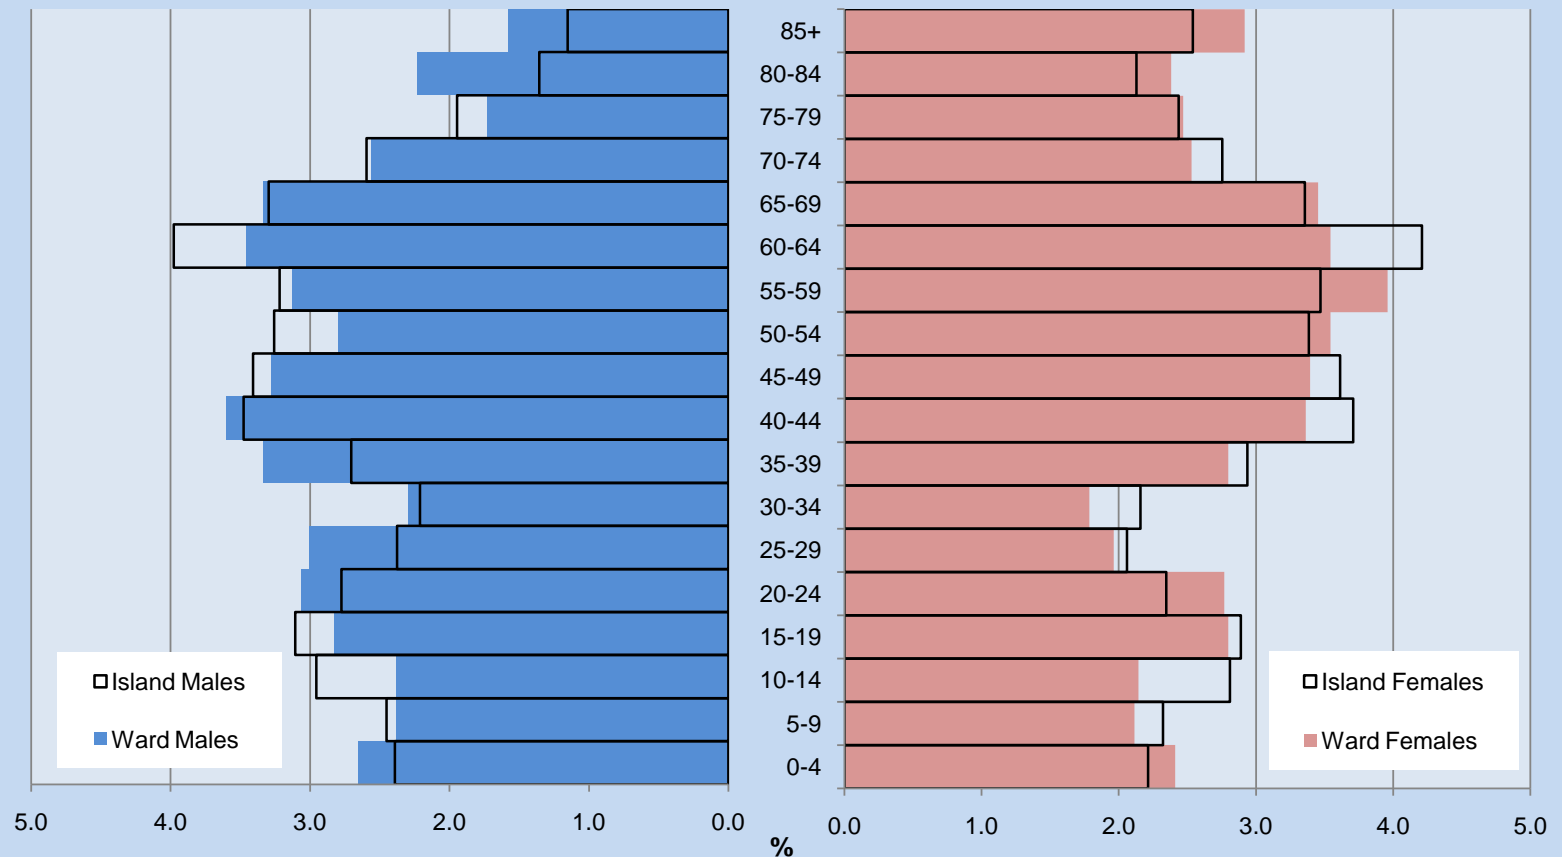

In this ward there is a fair degree of conformance to the Island profile:

Slightly increased levels of the under 20s population are indicative of the presence of both young and older families in the area.

Some pre-retirement out-migration occurs from age 60 onwards.

Newport North Ward; Age and Gender as % of population (3358), Compared to the Isle of Wight: ONS Mid Year Estimates 2009

	Male	Female	Total
85+	53	98	151

5-9	80	71	151
0-4	89	81	170
All Ages	1,667	1,691	3,358

This ward broadly conforms to the Island profile,:

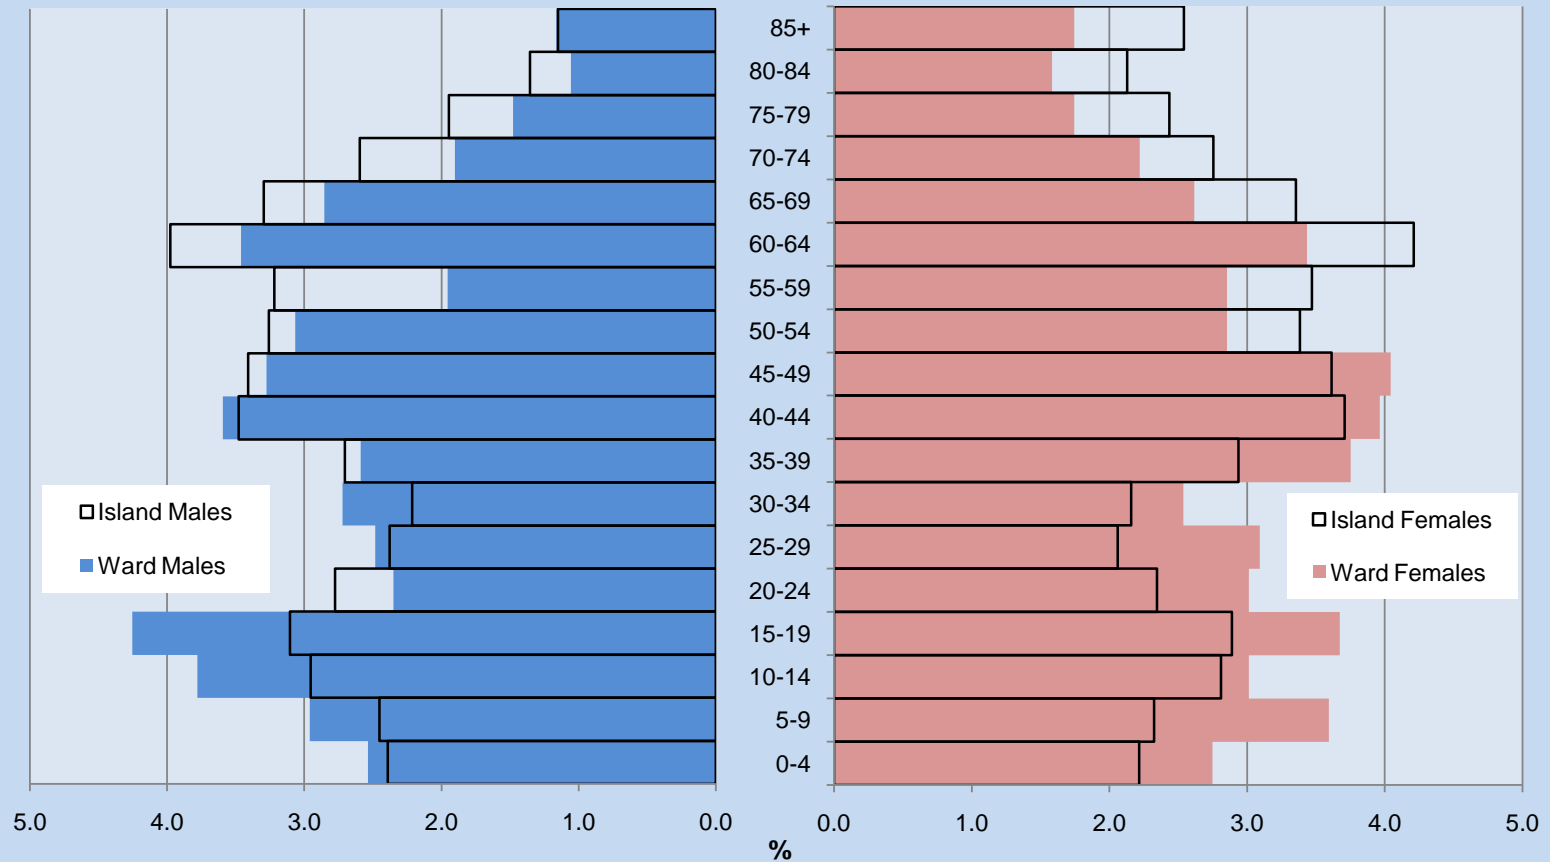

At approximately age 18 to 19 significant numbers leave to go to university or employment, the out-migration continues for the age-groups up until age 35 when inwards migration outnumbers departures.

Inward migration in the age-band 35 to 50 increase both those age groups and the proportion of their teenage offspring .

Proportionally inward migration continues across the age-bands 50 to 70 to give a significantly higher proportion of retirees.

Newport South Ward; Age and Gender as % of population (3783), Compared to the Isle of Wight: ONS Mid Year Estimates 2009

5-9	112	136	248
0-4	96	104	200
All Ages	1,797	1,986	3,783

A search for further education, employment or accommodation at age 19 explains the sharp decline in the numbers of this age group.

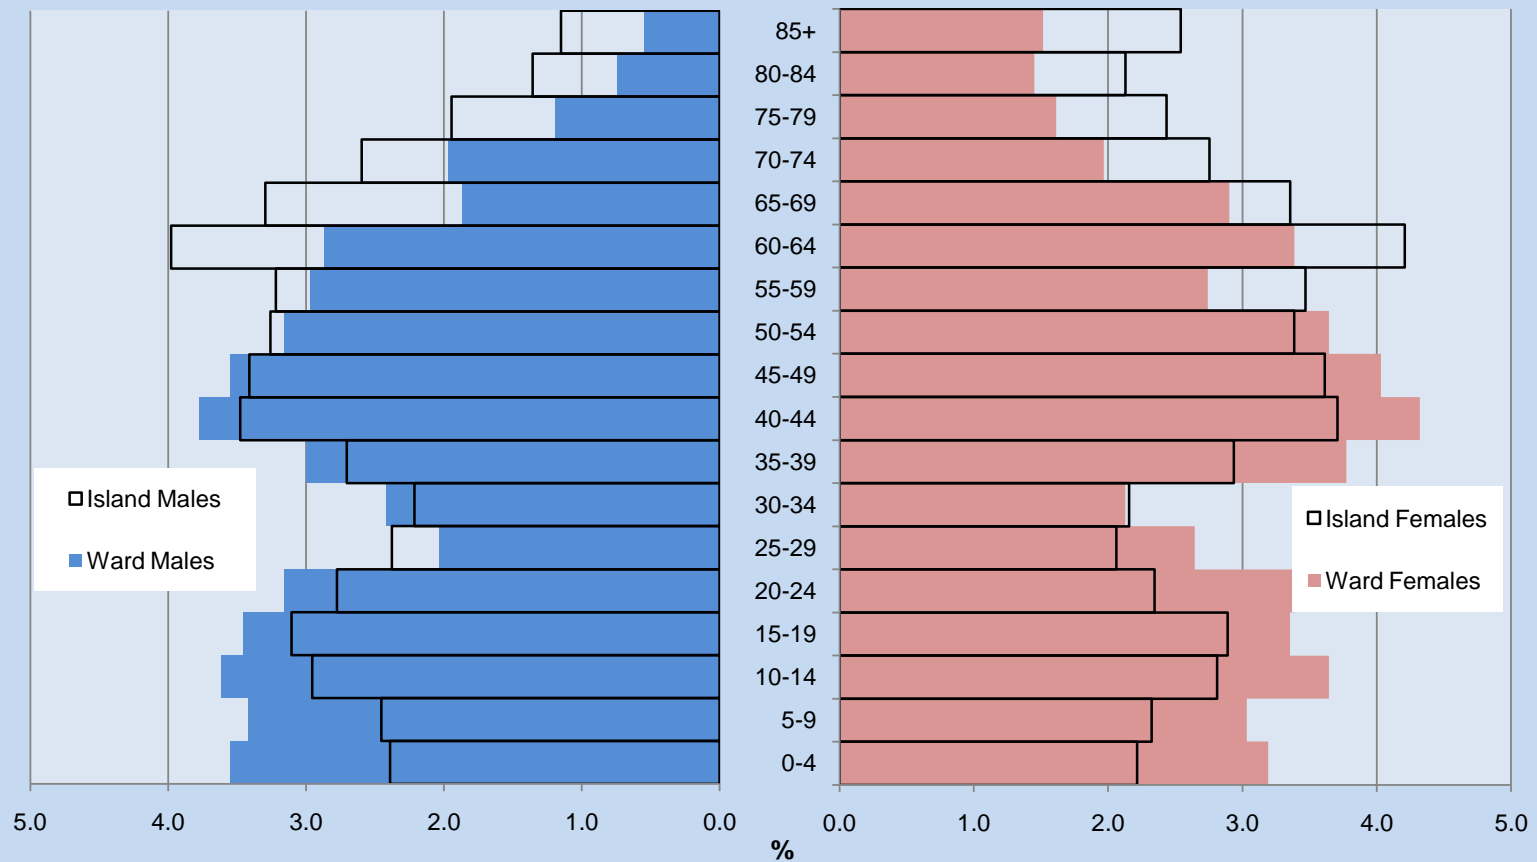

The presence of young families can be inferred from the numbers of under 10 children in proportion to the Island profile.

Inwards migration during the ages 35 to 50 includes a number of older families with attendant teenagers.

Out-migration from age 50 onwards contributes to a reduced proportion of retired people.

Newport West Ward; Age and Gender as % of population (3101), Compared to the Isle of Wight: ONS Mid Year Estimates 2009

5-9	106	94	200
0-4	110	99	209
All Ages	1,466	1,635	3,101

A proportionally higher than the Island profile number of school-aged children and young adults indicates the presence of a considerable number of young families.

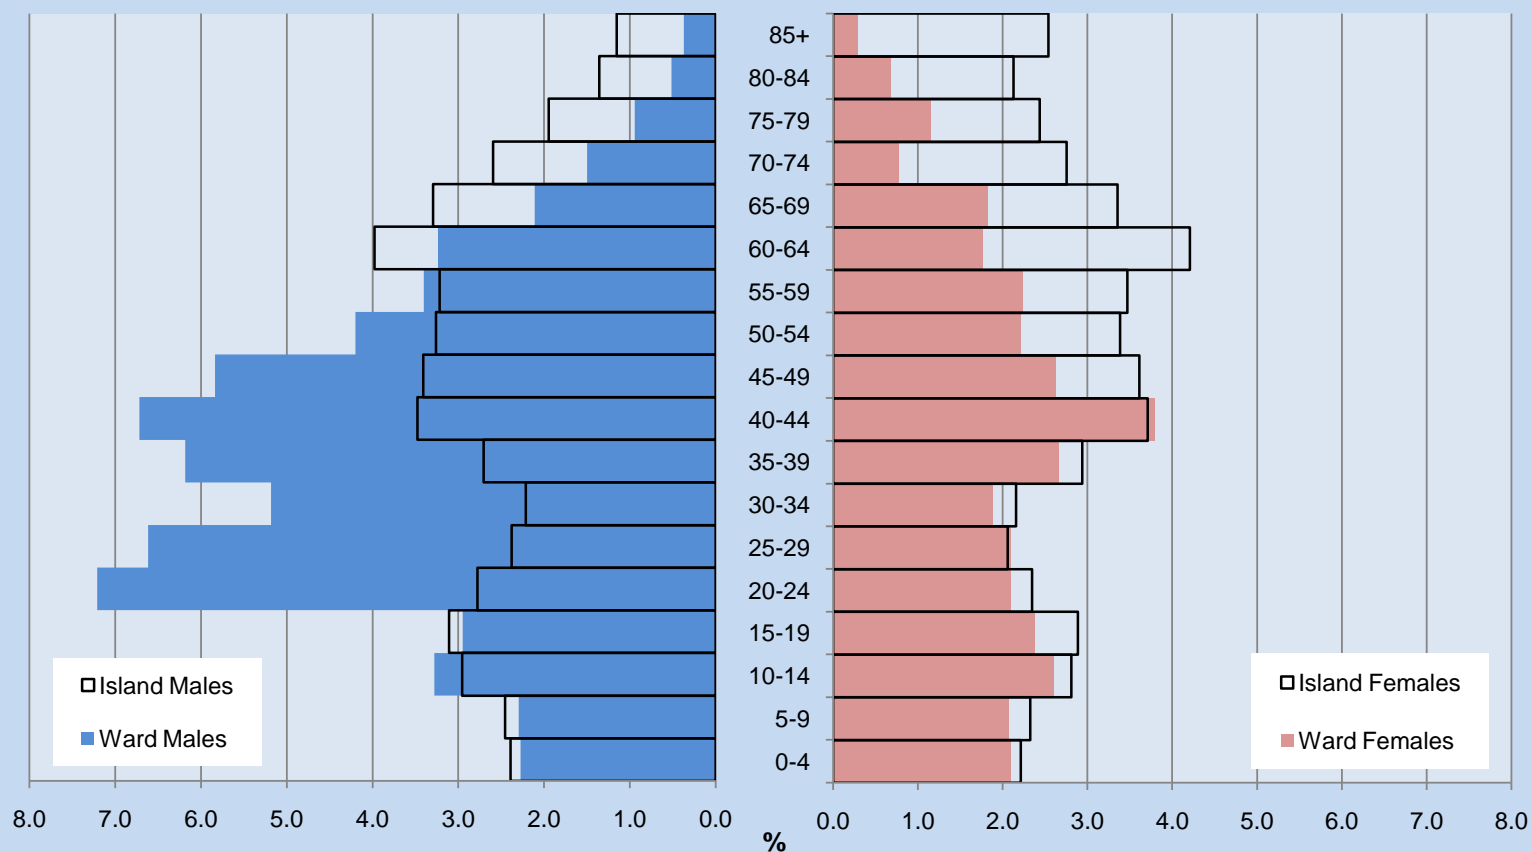

Net in-ward migration from age 30 onwards includes numbers of older families moving into the area, bringing teenage children with them.

Many of the post 19 age group leaves the ward - and in many cases leave the Island - in search of education, employment or accommodation.

Lower than the Island population of retired people due to sustained net out-migration from age 50 onwards.

All Ages	2,679	1,718	4397

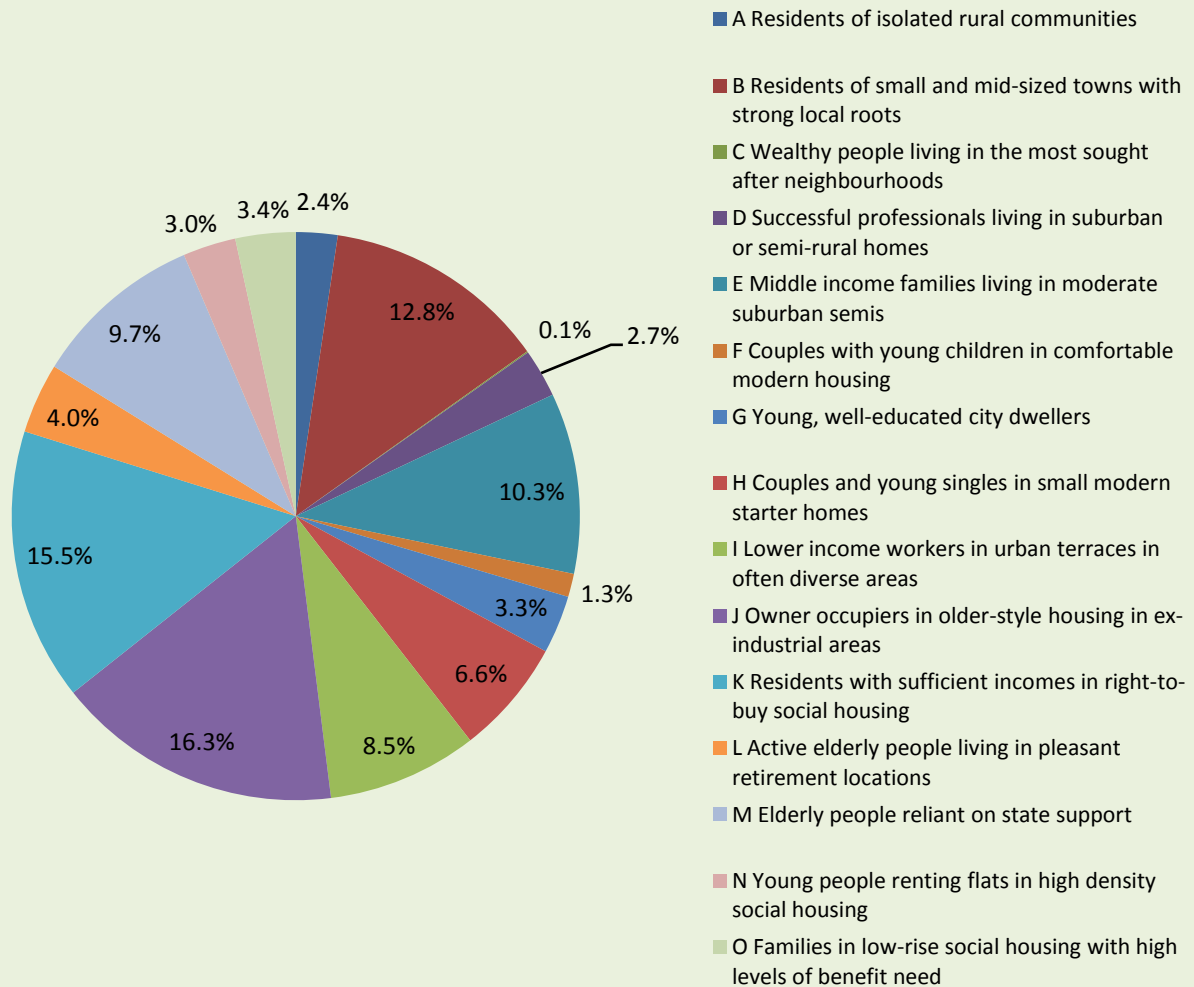

Adult males aged 20 to 59 appear to be significantly over represented in this profile despite subtracting the 2009 prison population (485 males) from the ONS ward population estimate.

However, there remains a general exit from the ward for retirement at about age 60. There also appears to be a significant number of young families, with the ward having a similar profile of school aged children to the Island.
