<p>Reasons for decision</p>	<p>To establish an effective form of executive governance within the Isle of Wight Council.</p>
<p>Additional reasons</p>	<p>To retain a Cabinet of 7 Members and introduce a Member Liaison system that will provide effective support to the relevant Cabinet Member in ensuring that the views of individual members are taken into account when decisions are made.</p>
<p>Options considered and rejected</p>	<p>There were no other options to be considered.</p>
<p>Representations Received</p>	<p>Representations were received from the Ward Member for Newport East on the proposed decision. These are listed below along with the response provided by the Leader of the Council:</p> <ul style="list-style-type: none"> • <u>Question</u> - How would the Member Liaison individuals liaise with other Members and how would the position of Member Liaison fit with an active Member making representation regarding decisions directly to the Cabinet Member responsible? • <u>Answer</u> - Representations could still be made directly to the Cabinet Member responsible. The Member Liaison roles would provide an additional and complementary function to this. • <u>Question</u> - Would the Member Liaison positions be seen as a barrier between Members and the Cabinet? • <u>Answer</u> – Member Liaison would not be a barrier between members and the Cabinet. • <u>Question</u> - How would the Member Liaison individuals ensure that Member views were taken into account when decisions are made, particularly if there are fundamental disagreements on policy? • <u>Answer</u> - Views would be taken into account in the same way that other Members' views are, listened to by both the Cabinet Member and the relevant Member Liaison. They would be considered and then the decision would be made. Whilst the Cabinet have demonstrated in recent months a willingness to take on board some of the suggestions made, not least in Full Council, there would inevitably be disagreements on policy, and as such there would be circumstances in which a minority view would not carry.
