

Councillor Lora Peacey-Wilcox - Cowes Medina Ward.

Annual Report 2012

As always I am here to represent YOU the electorate on issues you want resolved.

So far this year I have managed to achieve:

DOUBLE YELLOW LINES: Just outside of the Rec. Park Rd. This will allow anyone entering and exiting the site safer visibility.

THE REMOVAL of 2-3 parking spaces in Pelham Rd, **BUT** the creation of around 10-13 parking spaces in the restricted parking area!

THE ADDITION of up to 5 parking spaces in Arctic cycle road way; it was the intention to put double yellow down both sides of the road.

ST.FAITHS: Additional 3-4 parking spaces where double yellow was proposed.

NEWPORT RD: So many comments about this one.....Managed to gain an extra 3 spaces than was proposed.

DISABILITY FRIENDLY: With the help of Highways, have now secured **COMPLETE DISABLED** access along the High St. and parade **AND** secured extra disabled spaces on the parade.

NUMEROUS boundary disputes; although still in the process of these with the Crown Estate.

SCHOOL enquiries with regards to placing and transport issues.

PLANNING: always contentious, but I am here to represent your views, which I always do.

TREES: Again, getting these pruned (at appropriate time of year) around this area, including having ivy removed from beautiful large old oak that is being choked.

ORGANISING various public events.....Look out for the Cowes Magazine and Cowes Facebook page for details.

As in previous years, Highway issues, planning and dog fouling are **YOUR** largest concerns.
