Additional Comment

29th September 2006

Dear Mr Pegram,

Land south of Wellow/east of Holmfield Avenue west of Stoneovers and off Broad Lane Shalcombe Yarmouth: Proposed wind turbine generating station comprising 4 turbines 59m hub height and 100m overall height (tip height) and 2 turbines 68.5m hub height and 109.5m overall height (tip height)(total of 6 turbines) with associated infrastructure to include 59m high (approx.) meteorological mast crane pads switching station underground cables temporary construction compound parking bay and new access off Broad Lane.

Thank you for again consulting us on this proposal, we hope the following comments are of use to you in determining this application.

We welcome the additional information provided by the applicants in relation to this application which has addressed some of our previous concerns regarding missing information. If information has not been provided the applicant has explained why this is unachievable at this time.

Having reviewed the additional information I can confirm that our views remain the same and the AONB Partnership remains strongly opposed to this development due to its negative impact on the landscape character of the area and surrounding AONB.

Yours sincerely

Nicky Rogers
AONB Planning Officer
