Dear Mr Pegram,

Wellow Wind Turbine Proposal – Environmental Statement Addendum

Thank you for provision of a CD version of the addendum to the West Wight wind turbine development (Wellow) Environmental Statement (ES). This Directorate has nothing to add to the comments made in my earlier correspondence. As indicated within Chapter 18 of the addendum, there are evidently issues related to Bournemouth International Airport that need resolving and that need to be taken into account during any future planning deliberations.

Yours sincerely

Mark Smailes
